

COVID-19 Pandemic Poem

We were in 2020 and life was so great,
Then in March, all the sudden, we had to be safe
Coronavirus ruined all of our plans
And then it spread all over the world
Even in Japan!!!

We all went virtual
No more going to school
And now wearing masks at a grocery store is a rule

I could say that quarantine was bad
But we all know that it is good for us
But maybe we had all little much
I mean all of us were trying to keep in touch
But HEY we all know that we were one if a kind
Because one day one day the world will alline
