

The year of 2020 started off pretty rough

Pandemic life has been quite tough

Always wearing a mask

Is now a common task

Life like this is the worst I've eva' seen

Don't want this again, 'specially the quarantine

The virus came in without a single warning

But online school let me sleep in, in the morning

Six feet apart and spread out everywhere

No visiting others to show them how we care

There's cryin' and dyin' and don't know what to do

Everyone around is feelin' awfully blue

No weddings, or funerals, and certainly no graduations

Not one thing allowed for any celebrations

A lot is shutting down and others are losing work

Neighbor is hoarding toilet paper and acting like a jerk

Through all this God is always by my side

I'll won't have to be sad or even terrified

If all things go crazy or go so wrong

God protects forever and all day long
