

School Life in 2020

Last spring the virus came to our state
School closed down, no return date
On-line learning in pajamas was sweet
Fuzzy dog slippers on my feet

After months went by it wasn't as great
All these ZOOM meetings I really do hate
Crazy as it sounds, I miss my teachers
Waitin' for the bell, sittin' on the bleachers

Now, we have technology to get us through
But that screen's sure got me feeling blue
Don't get me wrong, being home's not bad
When the virus does away we'll all be glad

'Til that day we'll keep remote learning
Staring at our laptops, eyes red and burning
When this over give your teacher some praise
They've worked really hard and deserve a raise!
