

Quarantine

Gotta stay clean

The days go on and on,

Makes me feel like a machine

Hand sanitizer

Covid case analyzer

I guess you could call it

A fearsome tantalizer

Fears, tears, it's been a drear year

Cancellations for vacations

Regulations and recommendations

Ramifications for conversations

Variations of vaccinations

Even though it's been a rough stretch

And this year really makes me want to retch

There's always 2021

Let's just hope that there's no catch
