

COVID-19 please stop
I hate this a lot
I don't like wearing a facemask
Why don't you just ask
Before you give us a new task
Why do we have to social distance? Why
are you even in existence?
You are the worst
You are the first
Big virus in the 21st century
You are the sworn enemy
Washing are hands
No big fans
All the way from March though
December You just got to remember
Coronavirus is so bad
It just makes us all so mad
It doesn't make me happy a tad
To everyone who has this flu
Coronavirus, we will beat you!
