

The year 2020 seems really long
But I know that we together will end it off strong
Back in March we started school online
And I was zooming in my room all the time
Graduation got cancelled and weddings too
This social distancing mandate keep me from you
Clean and sanitize in your quarantine
We ask you to keep your mask on until we get this vaccine
So that it can work its magic like a machine
This 2020 may be chaotic
But at least it won't last forever
Let's end it off together.
